paper:  
08.09.2020

### ABOUT THE ORGANIZATION

Attitude Change International (Regd.) is a small voluntary organization based in beautiful valley of Darhal Malkan in District Rajouri of Jammu and Kashmir UT (India). Since its inception in 2010, the organization has been engaged in variety of awareness and action based peacebuilding programmes with a special focus on Peace Education to build the attitudes of masses towards attaining durable peace and sustainable development at regional, national and global level.

### ABOUT THE CONFERENCE

Indian National Education Policy (NEP) was framed in 1986 and modified in 1992. Since then significant changes have taken place in the country, society economy, and the world at large. While realizing education sector needs to gear itself towards the demands of the 21st Century and the needs of the people and the country, Government of India launched New National Education Policy early this year.

The new NEP-2020 that proposes sweeping changes needs an enquiry to trace education for peace or peace education in this policy which has potential to transform nation and entire humankind at large. In this regard, the small organization (ACI) tried to bring all stakeholders - academia, think tanks, experts, social scientists, peace educators, activists and budding scholars representing leading universities/ institutions/ organizations across globe at one platform to discuss/assess the presence, need, promotion and introduction of peace education as an integral part of NEP at all levels.

**Themes:** The participants may present their research/study on any theme related directly or indirectly with National Education Policy (India) and/or Peace Education.
